

Please pray and share with more men!

Men need individual discipling with another Christian man to make sure we know God through following His Word in our world.

“LOGOS Leaders Outreach meets this need!” says Darin S Maurer, ThM

www.logosleadersoutreach.org

Our culture needs godly men who can accurately and compassionately use the Bible in our lives. Just joining a men's group or church doesn't ensure that men will follow Christ. *Darin started LOGOS Leaders Outreach to give men the personal one on one interaction that enables them to apply the Bible in their daily situations (simply by asking at a meal or any type of activity together "What have you learned lately about God from your Bible?").*

The life changes that result impact leaders as well as their families in communities, spreading the Gospel of Jesus Christ. Many men have known God better by beginning to read their Bibles regularly and seeing how His holiness impacts their lives. As of 2015 Darin disciples as many as 50 men through individual meetings every other wk: including men in other states and countries. **Please prayerfully consider contributing to the support required for this mission!** Monthly contributions from those getting discipled have steadily increased and hopefully soon we will have no needs for special funding. All organizational ministry operations including administration require additional donations of \$6,500 monthly. We will always need prayer as men getting discipled make disciples of even more. Our website offers training for that and thank you for your consideration. **2 Timothy 2:2!!**

Darin (above with Bible next to his burger!), doing discipleship with Doug, and Doug discipling Brian below (Brian can look the Bible up on his phone).

“To be honest I didn't know what it really meant to be a disciple or to make a disciple, but at that point in my life I really needed someone to listen to my story and help me find Biblical ways to handle the issues that I was facing. For anyone who is intimidated by the thought of ‘discipleship’ ... don't be. What Darin does so well is that he takes the intimidation out of it.” Houston businessman Doug G
