

For over 30 years Darin's goal of getting guys and gals to follow Jesus Christ wholeheartedly has caused many discipling strategies since coming to Christ in college, including top training through Campus Crusade for Christ (Cru), and then forming almost 10 years ago by God's grace LOGOS Leaders Outreach. From all of the exciting moments when someone comes to Christ for the first time and/or begins to grow well spiritually, to the harder feelings of failure, one principle remains as the main method to make men Christlike disciple-makers:

GET GOD'S WORD INTO A PERSON'S LIFE

With that in mind, the LOGOS Leaders Outreach ministry involves a simple strategy of 2 steps. Strategy step #1 requires anyone who knows Jesus Christ to listen individually to what's gone on recently in the life of another person. Strategy step #2 happens when both people then look into the Bible for passages that relate to what they've discussed. For example, if stress gets mentioned, the one sharing his life could use a google search from a smart phone to find "Stress Scripture" (try this with a friend at a restaurant!!). This changes lives. Hebrew 4:12

On September 13th at Houston's JWMarriott @6:30, we plan to have a Discipleship Banquet to provide training in this and develop support for the outreach. Husbands and wives will attend hopefully together, and we'd like to fill our room with 800 guests. Local Christian businessman Terry Looper will cover costs and speak about the priority of personally discipling others, with a life-changing program, Lord willing. Please pray for this and reserve a spot if possible below!
